MURDER CHARGED.

Charles Toneyhill Arrested at Bellaire Yesterday.

AN ILLINOIS SHERIFF SAYS

THE MAN IS IMPLICATED IN A MURDER COMMITTED SEVERAL YEARS AGO IN THAT STATE. THE PRISONER DECLINES TO DISCUSS THE AFFAIR, BUT HE IS SAID TO HAVE TOLD RELATIVES THAT HE HAD BEEN IN TROUBLE IN ILLINOIS.

Charles Toneyhill is locked up at Bellaire, and will be held until the arrival of Sheriff Johnson, of Peoria, Ill., to-day or to-morrow. Toneyhill is supposed to be an accomplice in a murder that was committed four years ago in the Illinois town.

The sheriff has been working the case up for a long time and last June communicated with the marshal at Bellaire giving a full description. Toneyhill was there then and worked at the Benwood steel works. He continued at work there until last fall, when he got out of a job. He married Miss Mahala Huffman at Bellaire and has lived with his wife and her mother for three years or more.

He was arrested at the house late Monday night. He says nothing and nothing that he has ever done in this section would indicate that he is a dangerous character, but the officers seem to think there is no doubt he is the man wanted. In fact it is said that he told his folks at Bellaire about the matter and that they divulged it to intimate friends.

WHEELING POTTERS

Claim They Are Not Getting the Increase of Wages Promised—They Meet for Deliberate Action To-Night.

The clay hands employed at the Chapline street branch of the Wheeling Pottery Company, went out on strike yesterday morning, claiming that the management wasn't paying the scale of prices existing prior to a cut made several years ago, as promised them in the conference held between the manufacturers and potters some time ago. The cut was twelve and one-half per cent, which, it was agreed, would be restored at the beginning of the present year.

The first pay day of the new year occurred last Saturday, and the Wheeling Pottery Company's clay hands working on C. C. Ware, say they ascertained then that they weren't receiving the twelve and one-half per cent increase, as expected. The men held a meeting Monday night, which resulted in a determination to strike unless the wages prior to '94 were paid. A conference of a committee of the men with President Franzheim yesterday effected no satisfactory conclusion, and the clay hands met last night in Trades Assembly hall, under the auspices of the local union of potters, No. 6. National President Hughes, of East Liverpool, was expected to be present, but was unable to come, and another meeting was called for this evening, when Mr. Hughes will likely be present. Definite action will be taken this evening, and the men say they will strike unless their demands are complied with.

The chief difference between the men and the management, say the men, is on account of the company keeping out of their wages eight per cent for clay, while previous to the new year only three per cent was kept back. The prices to be paid for new articles of pottery were also entered into the difficulty. There are about one hundred men affected, and all work in what is known as the "old shop." They say that if it is found necessary they will have the men working in the other departments called out. It is thought, however, that the matter will be amicably settled in a day or two, and an amicable settlement would meet with general favor.

HOTEL SCHEME DROPPED.

One Will Not Be Built on the Truschel Property This Spring.

The five story modern brick hotel that was to have been built on the corner of Market street and the City Bank alley, by the Truschel estate, owners of the property now occupied by the buildings used by the Wheeling Bakery and Van Keuren's restaurant, is not to materialize this spring as was proposed. One of the ground floor store rooms was to have been occupied by Mr. Heymann's Sons' clothing establishment, but as this firm and the owners of the property could not come to a satisfactory arrangement, the project was formally declared off yesterday afternoon.

WORK COMMENCED

On the LaBelle's New Plate Mill—A Big Engine.

Bricklayers started yesterday on the erection of the new LaBelle plate mill. This will be a "three-high" mill, and with favorable weather will be completed in about three months. When the mill is ready for operation, a 1,700 horse power Corlies engine will be used, one of the largest engines in the Ohio valley. This engine will run the old and new plate mills, displacing "Old Abe," the engine now used in the old plate mill.

THE proprietors of Salvation Oil will pay a large reward, if any certificate published by them is not found genuine.

CATARH OF THE STOMACH.

A Pleasant Simple, but Effective Cure for It.

Catarh of the stomach has long been considered the next thing to incurable.

The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing; headache, sickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has a time to ferment and irritate the delicate mucous surfaces of the stomach.

To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harrison, the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux. Golden Seal and fruit acids.

These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and, not being a patent medicine, can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after a meal. Mr. N. J. Bohrer, of 2110 Dearborn Street, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom, passing backward into the throat, reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me three years for catarrh of stomach without cure, but to-day I am the happiest of men, after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling.

I have found flesh, appetite and sound rest from their use.

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Send for little book, mailed free, on stomach troubles, by addressing Stuart Company, Marshall, Mich. The tablets can be found at drug stores.
